Rice Market Report

Italy: There is still not much information for the new crop. The farmers should gently start harvesting but rain is expected especially in the evening and during the night during the next 6 days. We may therefore have to wait for good weather to return.

In terms of prices, it seems that a handful of Indica paddy's batches are sold at €350/mt, but we do not yet know if this is the price basis that the new crop will be sold on. It is still too early to tell.

I have reported the few prices and price indications for the milled rice that I have been able to collect in recent days as well as the prices of by-products from the Vercelli market.

For the rest we still must wait and see.
