

Rice Market Report

Italy: The weather has been fine for the past 8-10 days, the harvest is progressing well. To date about 50% of the harvest has been made. If the weather continues this positive path, by the end of this week it would take another 7-8 days and the harvest should be complete.

However, there is not a lot of paddy for sale in the markets. The transactions that take place are the pre-contracts in the fields that were concluded several months ago. For the rest the farmers harvest and keep in stock.

It seems that this year the yields will not be very good. There is a lot of emptiness in the cobs, chalky kernels, and green kernels. The rice would not have matured well.

At the price level, Indica paddy is officially at €380/mt but in the market farmers do not sell it below €400/mt. The same applies to long A paddy ...

For the Selenio officially it is listed at the price of €500/mt per paddy but it is not sold below €550 /mt in reality.

Concerning the Arborio group, there are different versions: paddy at €410/mt for a milled price between €730- €750/mt and paddy at €450/mt for a milled price between €770- €780/mt

The prices of the by-products have all gone up, again.
