## Rice Market Report

**Italy:** The market situation has hardly changed, paddy varieties SUPERFINI (Carnaroli, Arborio) are becoming increasingly rare, highly demanded the prices shot up. The white rice was even offered at €1800/MT.

Round grain paddy is also a rare commodity. According to reports from the AIRI the remaining paddy would be about 11'000MT. But as it relates to the quantities of loaded paddy, on these 11'000MT we do not know how much has already been sold and waiting to be loaded.

The rice mills offer €320-330/MT for the Indica paddy, but farmers do not accept these prices.

We still have no information about the new crop it is still too early. Nevertheless it already seems obvious that the Organic market will be very difficult and expensive as it was in 2014/2015. Strong demand and not enough raw material available.

Since the rice mills are not working much, by-products are still very hard to find, and they are in demand.
